

## Sulzer Pumps Easley Parts and Service Center

Advanced pump repair services – we're committed to making your repair headaches a thing of the past. We pick-up, evaluate, repair and return your pumps – as good as new!

Sulzer Pumps is dedicated to providing you with rapid turnaround, high quality pump repair services at a reasonable cost. When Sulzer repairs your pump, you can put it back in service and be confident that it will deliver optimum performance. Sulzer is ready to respond to your needs.

### Advanced Pump Efficiency Trouble-Shooting

Sometimes customers find repairs occurring at a higher frequency than would be expected. This is usually because of design, operation or system

factors that if left unaddressed, seriously affect efficiency and productivity. Sulzer has experienced engineering staff on-hand to address these repair issues. This is what sets Sulzer Pumps apart from other pump repair shops. When we find a repair is due to more than normal wear and tear, we also include the following:

- Proposals for material or design upgrades
- Recommendations for process or operational changes, if needed
- Recommendations for changes in maintenance procedures

### Rapid Repairs with OEM Spares

- Emergency repairs around the clock: 365/24/7
- Most repairs in four weeks or less
- Toll Free: 888-343-4348

### Bearing Unit Exchange

Remanufactured bearing units to OEM specifications off the shelf with full factory warranty.

### Service Kits

Sulzer Pumps offers the following Pump Service Kits:

- AHLSTAR™ Sideplate, Impeller, Bearing Unit, Dynamic Seal and Gland Packing Service Kits
- MBN Balancing Drum and Bearing Unit Service Kits
- ZPP Gland Packing and Bearing Unit Service Kits

Our primary goal at Sulzer Pumps is to always give our customers maximum value from the repair process. Sulzer customers can expect measurable improvements in their equipments' performance and efficiency when returned to service!
