

Sulzer Pumps Karhula Service Center

Sulzer Pumps is one of the world's leading manufacturers of centrifugal pumps. Renowned for high quality products, services and innovative solutions, we are dedicated to improving your processes and business performance. Our Customer Support Services team responds to your service needs and is focused on ensuring reliability for all your rotating machinery. Our global network of service centers makes Sulzer Pumps your ideal local service partner.

Resources and Facilities

The comprehensively equipped workshop facility has appropriate machine tools, inspection and assembly areas to facilitate overhaul and repair activities. Additional part manufacturing support is provided by Sulzer Pumps global network of production facilities. The office facilities house engineering, contract administration and sales staff providing in-house services for most hydraulic, mechanical and metallurgical problems. For more complex projects, full access to the Sulzer Pumps central engineering and technology groups delivers industry leading mechanical design and hydraulic development support.

Karhula Service Center is the central location of the Sulzer Pumps Finnish service center network with full competencies for pump and agitator service.

Core Competencies

- Repair and refurbishment of all types of pumps and agitators (either Sulzer or non-Sulzer manufacture).
- Equipment performance and material upgrades to meet changing process requirements.
- Provision of skilled field personnel for on-site overhauls, installation, start up and commissioning work plus machinery diagnostics and trouble shooting.
- Round the clock emergency service.
- Tailored engineering solutions to enhance equipment reliability and effectiveness.
- Inventory management, exchange unit service program as well as other long term service contracts.
