

Sulzer Pumps

Shanghai Service Center

Sulzer Pumps is one of the world's leading manufacturers of centrifugal pumps. We are dedicated to improving our customers' pumping processes and operational reliability. Our Customer Support Services team responds to industry service needs and is focused on ensuring high performance for all makes of rotating machinery. With an extensive global network of service centers, Sulzer Pumps is your ideal local service partner.

Resources and Facilities

Our comprehensive workshop facility in Shanghai is fully equipped to overhaul and repair all types of rotating machinery. Additional spare parts support is provided by Sulzer Pumps global network of spare parts manufacturing centers. The office center houses engineering, contract administration and sales staff providing services for a wide range of hydraulic, mechanical and metallurgical problems. For complex projects, Sulzer Pumps' engineering and technology groups provide the center with industry leading mechanical design and hydraulic development support.

Service Expertise

Repair and refurbishment of all types of rotating equipment (Sulzer and non-Sulzer manufacture).

- Equipment performance and material upgrades to meet changing process requirements.
- Provision of skilled field personnel for on-site overhauls, installation and commissioning work plus machinery diagnostics and trouble shooting onshore and offshore.
- Round the clock emergency response cover.
- Tailored engineering solutions to enhance equipment reliability and effectiveness.
- Management services in association with Long Term Equipment Support Contracts.
- Reverse engineering, rapid prototyping and manufacture of 3rd party parts
- In-house rotor balancing with a Schenck balancing machine.

Performance Through People
