### Sulzer Select Online Pumps Selection Tool

Welcome to Sulzer Pumps internet based pump selection program, Sulzer Select.

Sulzer Select allows customers to make quick, accurate pump selections and to produce PDF output of the performance curve and data. Sulzer Select is an internet based program and does not require any special software to be loaded onto the users computer, though Sulzer Select requires an Internet Explorer Version 6 or higher. Pump selections can be made by inputting specific operating conditions or by selecting specific pump sizes.

Sulzer Select is a powerful tool but cannot include all hydraulics that Sulzer Pumps can offer. If your specific conditions cannot be met by Sulzer Select please contact your local sales office for application assistance.

**Important Note**  
When logging in for the first time you will be asked to complete a brief form before your username and password are e-mailed to you. This e-mail may be diverted to your junk folder depending on your browser settings. **If you do not receive the mail please check your junk mail before requesting assistance.**

Please remember to give your new account time to set up before logging in.  
If your login or password are rejected please use the ['lost password' function](#) to have a new one automatically sent to you.

If you are still having log in problems please contact [login.help@sulzer.com](mailto:login.help@sulzer.com)
